

*Raising A Reader MA is an evidence-based early literacy organization dedicated to helping families of young children (newborn through age 6) develop, practice and maintain habits of reading together at home. Our work, which both increases access to books and offers families tools and support for strengthening the culture of reading at home, is driven by 25 years of research that shows the single most significant factor influencing a child's academic achievement is being regularly read to by their parents and adult caregivers before starting kindergarten.*
